## **Tropical duo: Neo Slim Gold in Rainforest & Marshmallow**

Endless sandy beaches, the gentle sound of the sea: The new Neo Slim Gold in Rainforest and Marshmallow makes us long for distant holiday paradises, dream of the lush green of tropical forests and those small beach bars where we sit with a pen in hand, record travel memories of another adventurous day and write holiday greetings to our loved ones while the sun slowly sinks into the sea on the horizon.

With their particularly slim, lacquered barrel, the Neo Slim ballpoint pens and fountain pens are the ideal tools for all frequent writers who value clear lines and purist design. In deep dark green and soft creamy white, the writing instruments in this limited edition are both secure and light in the hand. Special eye-catchers are the front and end pieces as well as the spring-loaded clip, which set elegant accents in a shiny gold look.

The fountain pen is available with a high-quality, gold-plated stainless steel nib in widths M, F and EF and is equipped with a practical ink cartridge converter system. The ballpoint pen has a document-proof large capacity refill that writes particularly long. As a stylish travel companion, the Neo Slim is guaranteed to become a favourite in your holiday luggage!
